

Sustainability at SOMIC

For a liveable future

As a fundamental part of the company's DNA, we have been paying attention to a balance in terms of sustainability for decades. This includes ecological, economic and also social aspects. It goes without saying that SOMIC cultivates long-term relationships with employees, suppliers and customers based on partnership. This ensures appreciation, reliability and constant success on the market. For all our passion for high-tech and absolute perfection, our focus is always on people.

Ecological sustainability

- Maximal performance on the smallest footprint
- Reliable multi-format capability
- Minimised noise emissions
- Lowest wear and spare parts requirements
- Long service life of the machines
- Resource-saving use of operating materials

Economic sustainability

- Suppliers from the region minimise our ecological footprint
- Short transport routes and use of sustainable transport solutions
- Programming new formats via remote control protects the environment and saves travel costs
- 100 percent certified green electricity from renewable energies

Social sustainability

- Partnership and long-term relationships with employees, suppliers and customers
- Assuming responsibility as a medium-sized employer and trainer in the region
- Binding supplier and value code
